PERFORMANCE CERTIFICATE

We refer to the installation of RENTAR CATALYST; Model HBEN 1508 for our DG set 140 KVA Make Cummins. We are pleased to confirm that we have achieved a fuel saving of more than 12% compared to before installation of Rentar. We have also observed that black smoke is reduced and engine running smoothly without much vibrations. This product also reduces Green house gas emissions.

A handwritten signature in black ink, appearing to read 'K C Chadha', is written over a horizontal line.

K C Chadha

13/33

Additional General Manager
